Condemnation of Israeli offensive escalation in the West Bank

The Federation of Women of Greece (OGE) strongly condemns the escalation of the criminal attack on the Palestinian people by the murderous state of Israel in the West Bank. This is a planned attack by Israel, with dozens of murders, injuries and arrests in close cooperation with the criminal activity of the settlers.

While the murderous state expands the genocide of the Palestinian people, the USA, NATO, the EU and its governments, such as the Greek one, continue to support this great crime by all means.

We do not tolerate Israel's dirty plans to displace the Palestinian population from its lands, to cancel any attempt to establish a Palestinian state on the 1967 borders with East Jerusalem as its capital, to strengthen its position in the region against other powers, a fact that prepares the ground for a generalized war in the region, in accordance with Israeli and NATO plans and objectives.

OGE expresses its solidarity with the long-suffering and struggling Palestinian people and demands that the Greek government stops all military and financial support, as well as any relation or cooperation with Israel.

We call on all WIDF organisations to demand from their governments not to have any military, economic or political cooperation with the state of Israel.

We strengthen our struggle for FREE PALESTINE.
